NOXADRENE[®] is a powerful growth enhancing booster that has been formulated to increase Nitric Oxide (NO) levels in the body resulting in dramatic muscle size growth, strength, endurance, power output, load capacity and a perpetually pumped up physique. Of particular interest to bodybuilders is hemodilation - the ability to cause long lasting blood flow to the muscles - promoting muscle growth, increasing strength, accelerating muscle recovery, and giving an awesome pump![†]

Newton-Everett Biotech[®] has combined four of the perpetual pump components A-AKG, (arginine alpha-ketoglutarate), A-KIC (arginine ketoisocaproate), OKG (ornithine alpha-ketoglutarate), G-AKG (glutamine alpha-ketoglutarate) into one product to make your pumps last longer and even harder![†]

Suggested Use: As a dietary supplement, take 3 tablets twice daily with water on an empty stomach.
