

Discover the *force* of the Whole™

Holy Basil, also known as Tulsi, supports immune cells and multiple markers of healthy immune function.* Holy Basil promotes cognitive functions that support your alertness, focus, and healthy attention span including speed of memory and short-term memory.* We use a whole-food approach to deliver a broad spectrum of Holy Basil's beneficial compounds, matching Nature's true profile by extracting the whole leaf using both supercritical and traditional methods. Our full-spectrum process preserves precious plant compounds, delivered in a 100% vegetarian formulation from extract to capsule.

Full-Spectrum Extraction: Our Difference

Many companies isolate elements from an herb, concentrate them, and label it "whole herb." New Chapter® delivers the wisdom of **whole food**. Using only supercritical CO₂ or traditional techniques of extraction, our *Force* extracts offer a broad spectrum of beneficial phytonutrients in their natural profile.
