

Supercritical Omegas

Supercritical Omega-7 delivers plant-sourced Palmitoleic acid, an Omega-7 fatty acid recognized as one of Nature's "good fats." A superfood botanical that's a staple of traditional herbal systems, Sea Buckthorn is also being researched for its many benefits. The full spectrum of beneficial compounds found in Sea Buckthorn is delivered using a supercritical extraction, whole-food approach to herbal supplementation. The herbs in this blend, including Calendula and Rosemary, have been carefully selected for their complementary properties. Our full-spectrum process extracts precious plant compounds to preserve Nature's full complexity, delivering super-pure, super-potent herbal extracts.
