

Discover the *force* of the Whole™

Cinnamon possesses a unique power amongst botanicals by assisting in the body's conversion of sugar (glucose) into energy.* The full spectrum of beneficial compounds found in Cinnamon Force™ is delivered using a supercritical extraction, whole-food approach to herbal supplementation. Cinnamon Force promotes **healthy weight management** by helping glucose create immediate cellular energy instead of stored potential energy in the form of fat deposits.* Our full-spectrum process preserves precious plant compounds, delivered in a 100% vegetarian formulation from extract to capsule.

Full-Spectrum Extraction: Our Difference

Many companies isolate elements from an herb, concentrate them, and label it "whole herb." New Chapter® delivers the wisdom of *whole food*. Using only natural supercritical CO₂ or traditional techniques of extraction, our Force extracts guarantee the fullest spectrum of beneficial phytonutrients in their natural profile.
