

Bronson's lecithin is a concentrated granular form of soybean lecithin. It is an all natural product made up primarily by three types of phosphatides: Phosphatidylcholine, Phosphatidylethanolamine and Phosphatidylinositol. This product contains a minimum of 95% soy phosphatides.

Granular lecithin has a nutlike taste. As in all genuine granular lecithins, it contains no dilutants or additives such as soyflour and various proteins.

Color of lecithin may vary due to seasonal changes of soybeans.

DIRECTIONS: As a dietary supplement for adults, 1 tablespoon daily or as directed by a health professional. Lecithin is a pleasant addition to cereals, soups, salads, fruit juices, protein drinks and vegetable juices. To ensure freshness, keep container sealed and dry.

Contains Soy.

Store at room temperature. Protect from light. Keep out of reach of children.
