Enteric Coated • No Fishy Repeat

1000 mg • 90 Softgels

PURE SOURCE OF OMEGA-3'S

Purity & Potency
Guaranteed

Suggested Usage: 1 softgel 1–2 times per day or as directed by a health professional. Keep out of reach of children.

Natural Factors® Wild Alaskan Salmon Oil enteric coated softgels contain 100% pure salmon oil with a naturally-occurring ratio of nearly 1:1 EPA to DHA. The enteric-coated softgels are ideal for people who may have a problem with a fishy repeat after ingestion. The oil is extracted solely from already harvested salmon, using fish parts that would otherwise be wasted and thereby conserving existing stocks. Natural Factors® Wild Alaskan Salmon Oil is regularly tested for chemical residue and heavy metals to ensure a safe and pure source of fish oil.

All Natural Factors products are manufactured in accordance with the Government of Canada's Good Manufacturing Practices (GMP), among the highest standards in the world.

Contains no artificial color or sweeteners; no corn, dairy, gluten, starch, wheat or yeast. Sealed for your protection. Do not use if seal is broken. For freshness, store in a cool, dry place.
