SlimStyles[®] PGX[®] – The Weight Control Breakthrough
The most important advantage of SlimStyles[®] over other weight loss products is the clinically proven ingredient PGX[®]. PGX[®] (PolyGlycopleX[®]) is a novel complex of water-soluble polysaccharides (plant fibers) that research has shown to safely and effectively support healthy blood sugar levels within normal ranges, reduce appetite and support weight management[†].

*PGX[®] is completely unique over other soluble fiber products in that significantly less PGX[®] is required to obtain the same important health benefits, including appetite control and reduced food cravings.[†] In addition, SlimStyles[®] makes a delicious creamy shake in a jiffy that provides a full spectrum of essential nutrients and protein combined with PGX[®] which helps to keep you full and satisfied for up to 4 hours.
