SlimStyles® PGX® – The Weight Control Breakthrough

The most important advantage of SlimStyles® over other weight loss products is the clinically proven ingredient PGX®. PGX® (PolyGlycopleX®) is a novel complex of water-soluble polysaccharides (plant fibers) that research has shown to safely and effectively support healthy blood sugar levels within normal ranges, reduce appetite and support weight management.[‡]

*PGX® is completely unique over other soluble fiber products in that significantly less PGX® is required to obtain the same important health benefits, including appetite control and reduced food cravings.[‡] In addition, SlimStyles® makes a delicious creamy shake in a jiffy that provides a full spectrum of essential nutrients and protein combined with PGX® which helps to keep you full and satisfied for up to 4 hours.
