** Daily Value not established.			

Other ingredients: 100% pure fructose powder, xylitol, natural chocolate flavor.

DIETARY SUPPLEMENT

WellBetX®
PGX®

Patent Pending

Weight Loss Shake

Chocolate

1.9 lb (854 g) Powder

APPETITE CONTROL & GLUCOSE BALANCE†

natural
Factors®

Suggested Usage: For the first 1–2 weeks, add 1/2 –1 scoop of **WellBetX®** powder to 10–12 fl. oz of cold water and shake in a shaker cup or mix in a blender with ice. Gradually increase dosage to 2 scoops (61 g) and mix in 16 fl. oz of water as directed above or as directed by a health professional. Keep out of reach of children.

Serving Option: **WellBetX®** powder makes a delicious pudding! Follow the directions above. After mixing, pour into a bowl and refrigerate for 1 hour. Add 1/2 a banana or other fruit for variety.

Notice: Adding healthy soluble fiber to your daily diet has many health benefits. You may experience a temporary change in your bowel movements as your body adjusts to the addition of the PGX® soluble fiber, usually in 3–7 days. Start off with half the dose and slowly work up to full dose to help your body adjust to PGX®. Taking PGX® daily will support a healthy gastrointestinal tract and overall good health including healthy glucose levels.† The PGX® fiber does swell when mixed with water; therefore, it is important to drink adequate amounts of water (12–16 fl. oz) after ingesting the product.

Caution: If you are under 18 years of age, pregnant or nursing or if you have health concerns, consult a health professional before starting any weight loss plan. If taking medication, take it 1 hour prior to or 2 hours after taking PGX®.

WellBetX® weight loss formula is designed to promote and support weight loss through appetite control and glucose balance.† The formula is quick and easy to mix and makes a creamy “shake” or pudding for a healthy snack or meal option that is both delicious and satisfying.

WellBetX® powder is *completely unique* from other weight loss programs! It supplies the body with an optimum blend of nutrients, is high in protein, has a low glycemic index and tastes delicious! A key component of the formula is PGX® (PolyGlycoplex®), a proprietary soluble fiber blend clinically proven to support weight loss (when combined with a healthy diet and regular exercise).†

• **PGX® is unlike any other soluble fiber.**

Why is PGX® unique compared to other fibers? Significantly less PGX® is required to obtain the same important health benefits, such as support for glucose balance and weight loss. PGX® is highly effective for appetite control, making **WellBetX®** a satisfying snack or meal option that helps reduce carbohydrate and sugar cravings! PGX® was developed through extensive research at the University of Toronto and the Canadian Center for Functional Medicine.

High Fiber • High Protein • Low Glycemic Index

Available in 2 delicious all-natural flavors: Chocolate and French Vanilla.

Look for other **WellBetX®** products: Complete Multi, Daily Packets for Glucose Balance†, PGX® Capsules and Glucose Balance Herbal Formula†.

All Natural Factors products are manufactured in accordance with the Government of Canada's Good Manufacturing Practices (GMP), among the highest standards in the world.
