** Daily Value not established

Other Ingredients: Gelatin, glycerin and purified water (capsule), aqueous based coating solution (enteric-coating). Contains soy.

Enteric-Coating eliminates the odor and any fishy aftertaste typically associated with taking a fish oil capsule. Enteric-Coating protects the softgel capsule from being digested in the stomach and allows the fish oil to reach the lower gastrointestinal tract. Guaranteed to comply with strict European standards for heavy metals, PCBs, dioxins, pesticides and other unwanted compounds. Our fish oil is **molecularly distilled** to remove PCBs, dioxins and heavy metals such as lead and mercury. The process also reduces oxidation of the oil and helps keep it fresh and stable.

Contains No sugar, salt, dairy, yeast, wheat, gluten, or corn.

Suggested Use: As a dietary supplement, adults take one (1) soft-gel capsule daily with a meal, or as directed by a health care professional. Store in a cool, dry place and away from direct light. Keep out of reach of children.
