

DIETARY SUPPLEMENT

Suggested Usage: For daily immune support, take 1 capsule (15 mg) per day. For advanced immune support take 1 mg for every 2.2 pounds of body weight or as directed by a health professional. Keep out of reach of children.

Calculate: Body weight divided by 2.2, multiplied by 1 mg = dosage. e.g. 140 lb would equal 4 capsules per day.

Best if taken on an empty stomach.
