

SUGGESTED USE: As a dietary supplement, take two (2) lozenges twice daily on an empty stomach with an 8 oz glass of water.

The freshest, purest and finest Colostrum that is freeze dried, vacuum processed and gently produced into lozenges with extreme care and diligence. Our goal is to deliver you Colostrum that is as close to nature as possible. We do not process or de-fat our Colostrum or adulterate it in any manner, therefore, ours has the highest amounts of immunoglobulins IgG, IgA and IgM, nucleotides, gamma interferon, ootic acid and enzymes.

The quality standard for Colostrum is that it has standardized immunoglobulins (IgG) to 30% of the protein which is what Olympian Labs uses in every batch. This is the measurement of activity that relates to the effectiveness of Colostrum. If it doesn't say standardized to 30% of the protein, it's probably not. Compare and see.

Amount Per Serving:		%Daily Value
Colostrum	1 g	†

*Percent Daily Values are based on a 2,000 calorie diet.

†Daily Value not established.

Other Ingredients: Dipac (sugar), Butterscotch, and Vanilla Flavor.

Our Colostrum is procured from Grade A dairies of United States origin. Conditions for selection of animals include pregnant dairy cows of good health with no identified infections or metabolic diseases. Colostrum animals are negative for brucellosis and tuberculosis in accordance with generally accepted dairy industry practice. Colostrum is collected from the first day (24 hours) lacteal secretions post partum and is antibiotic and pesticide free. Dairy farms on our liquid procurement program have committed to be free of artificial BST hormone.
