

DIETARY SUPPLEMENT

Suggested Usage: 1 capsule every 12 hours or as directed by a health professional. Keep out of reach of children.

Horse Chestnut with Grape Seed is a unique antioxidant combination that supports the circulatory system. Escin (Horse Chestnut's active component) strengthens veins to prevent the fluid leakage out of blood vessels which can lead to swelling. Grape Seed is a clinically proven free radical scavenger, which prevents cellular damage in the body. Together, Horse Chestnut and Grape Seed are effective in maintaining the structural integrity of veins and capillaries that are frequently exposed to stress.*

Caution: Not recommended for pregnant or lactating women. Do not take this product if you have kidney, liver or heart problems unless under the direction of a physician. If you have any adverse side effects, discontinue use and see a physician.

All Natural Factors products are manufactured in accordance with the Government of Canada's Good Manufacturing Practices (GMP), among the highest standards in the world.
