*Percent Daily Values are based on a 2,000 calorie diet.

†Daily Value not established.

Other Ingredients: Microcrystalline Cellulose (Plant Fiber), Rice Flour, Ascorbyl Palmitate and Silica.

Olympian Labs' Grape Seed Extract contains 95% Oligomeric Proanthocyanidin B2-3-O-gallate. Oligomeric Procyanidins are a more potent antioxidant than those from pine bark. Pycnogenol is a generic chemical term used to distinguish the polyphenolic class of bioflavonoids which contain Flavin-3-ols from the simpler bioflavonoids. These Pycnogenols are also called Oligomeric Procyanidins. Both these terms refer to the condensed structure of the Flavanol molecule. Olympian Labs' Grape Seed Extract, through a low temperature extraction method, is completely water soluble and free of dangerous solvents and food coloring additives. Water solubility means optimum bioavailability.
