

Cholesterol Support Formula is a powerful blend of nutrients designed to naturally support healthy cholesterol levels. This comprehensive formula includes policosanol, a complex nutrient that has both antioxidant effects and supports liver cholesterol metabolism. CoQ10 and ActVin® grape seed extract are included to provide specific antioxidant support to cardiovascular tissue while also supporting the transfer of energy from food. Inositol hexanicolinate provides a form of niacin offering all the benefits of traditional niacin without the uncomfortable flush.

In conjunction with a healthy diet, Cholesterol Support Formula helps support cholesterol levels already within a normal range.†

ActVin® and ActPure® are registered trademarks of Dry Creek Nutrition Inc.
