

DIETARY SUPPLEMENT

Suggested Usage: Take 1 capsule, 3-6 times per day with meals or as directed by a health professional.

Natural Factors Standardized Milk Thistle Phytosome™ capsules are standardized to 15% Silybin, a mixture of valuable flavonolignans, bound to phosphatidylcholine (from lecithin) to enhance bioavailability. Numerous clinical studies show that Milk Thistle supports and promotes liver function in healthy individuals. It provides a protective, antioxidant effect on the liver, fortifying it against the undesirable effects of alcohol, smoke and harmful chemicals. These special qualities make it especially valuable for people in polluted environments. Dandelion and Turmeric have been traditionally used and scientifically studied for their support of liver health.*

All Natural Factors products are manufactured in accordance with the government of Canada's Good Manufacturing Practices (GMP), among the highest standards in the world.

Contains no artificial preservatives, color or sweeteners, no corn, dairy, wheat or yeast. Product has been sealed for your protection. Do not use if seal is broken. For freshness store in a cool, dry place.
