Shiitake mycelia (*Lentinus edodes* (Berk.) Singer), or lentinus edodes mycelia is the immature growing stage of the shiitake lifecycle. It is rich in carbohydrates, protein, vitamins and minerals. The polysaccharide-protein complex, a new peptidomannan (KS-2), and a water-solubilized lignin derivative (EPS-3) are key constituents of the extract. This 28:1 extract is standardized to contain 3.2% KS-2 peptidomannan.

### Suggested Usage:

As a dietary supplement, adults take 1 capsule daily, up to 15 capsules, 3 times daily between meals, or as advised by your healthcare professional. If digestive irritation occurs, take with meals.

Note: If you are pregnant or nursing consult your healthcare professional before using this product.

**KEEP OUT OF REACH OF CHILDREN.**

For optimal storage conditions, store in a cool, dry place.

(59°-77°F/15°-25°C)(35-65% relative humidity)

Tamper resistant package, do not use if outer seal is missing.

Formula #77371
