

SUGGESTED USE: Mix one (1) scoop (35g) of Pea Protein powder into eight (8) ounces of cold beverage of choice. Shake or blend to desired consistency. It can also be easily blended with frozen fruit to make a smoothie.

Pea Protein is a natural, vegetable-based protein powder derived from yellow peas (*Pisum sativum*). Yellow peas are more commonly known as "split peas" and are used extensively in food preparation such as in soups & purées.

Most commercially available protein powders are derived from soy, rice, eggs, or dairy, which are often problematic for those with allergic dietary concerns. We've chosen Pea Protein because it is a plant-based, hypoallergenic protein that yields a high biological value (55.4%). The BV is an accurate indicator of the biological activity of protein. It measures the actual amount of protein deposited per gram of protein absorbed. High BV proteins are a better choice for increased nitrogen retention, enhanced immunity and IGF-1 (insulin-like growth factor) stimulation. They are superior for reducing lean tissue loss from various wasting states than proteins with a low BV score.

Through a clever extraction and purification process, our Pea Protein is concentrated from the normal level of 6% in fresh peas to 90% protein content! This unique process produces a protein powder that is highly soluble and easy to digest. Pea Protein is ideal for vegans, offers an excellent nutritional profile, is free of gluten, lactose, cholesterol and other anti-nutritional factors.*

Benefits of Pea Protein:

- Non-GMO*
- Hypoallergenic*
- Perfect for Vegans*
- 100% Gluten Free*
- 100% Cholesterol Free*
- Highly Soluble & Easy to Digest*
- 100% Plant-Based Protein*
- Source of Beneficial Amino Acids*
- Environmentally Friendly Source of Protein*
- Highly Suitable for Sustainable Agriculture*

Our Philosophy

At Olympian Labs (OL), quality is not a choice, it's a commitment. We source our ingredients from all over the world to bring you the highest quality herbs, vitamins, minerals, amino acids and specialized ingredients. All of our products are produced in a GMP facility which reflects our true commitment to quality.

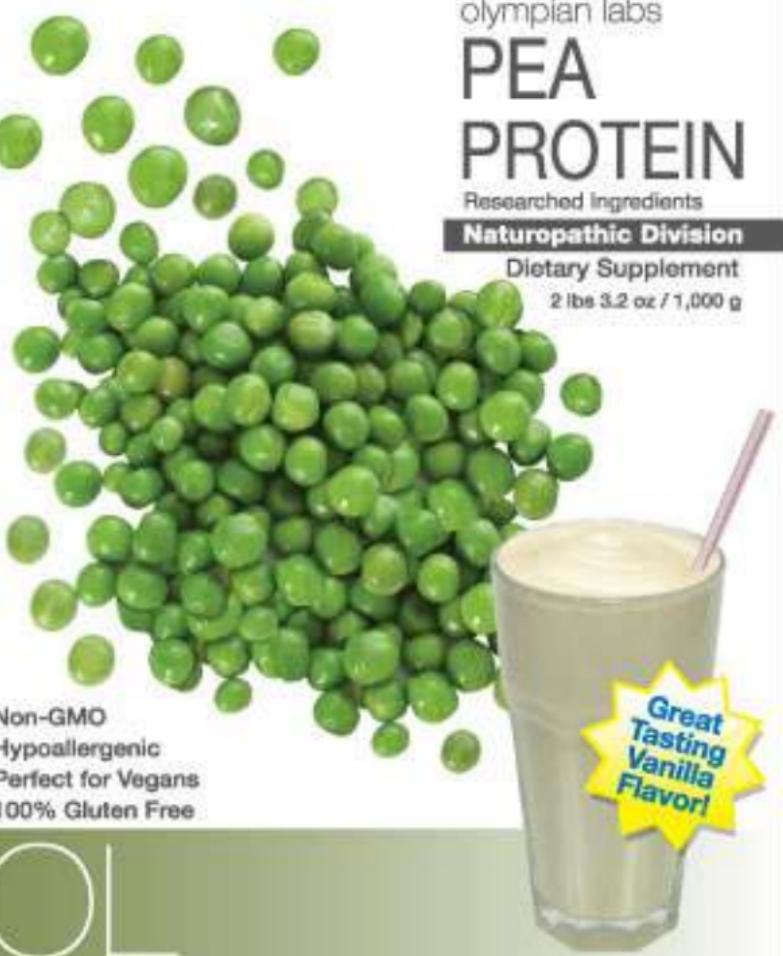

OL products are free of most allergens such as corn, yeast, barley, wheat, soy, lactose, gluten, citrus, dairy, egg products, as well as added flavorings, salt, preservatives, salicylates, artificial colors and coatings.

When you buy OL, rest assured you are buying the best.
