

Ultimate Greens Protein 8 in 1 with Hemp, Rice & Pea Protein:

Ultimate Greens Protein 8 in 1 with Hemp, Rice & Pea Protein is a great tasting, nutrient-rich, complete, whole food drink mix that contains a blend of eight products in one! Ultimate Greens provides an unbelievable 13,000 ORAC units per serving!

Ultimate Greens Protein 8 in 1 with Hemp, Rice & Pea Protein contains whole food multivitamins, enzymes, patented fiber, antioxidants, gentle cleansers & detoxifiers and probiotics in addition to a whopping 20 grams of protein per serving! No other Greens drink compares. Not only have we provided optimal protein content but we've done it like never before. We blended Hemp, Rice & Pea Protein Isolate, three unique, plant-based, hypoallergenic proteins, in just the right ratio to produce an easily digested, great tasting protein source that is perfectly suited for everyone, especially for those with special and allergic dietary concerns.

Triple Blend of Hemp, Rice & Pea Protein - Most greens drinks available today contain little or no protein, only vegetable and fruit powders which can contribute to fluctuating blood sugar levels. When they do contain protein, it is usually derived from soy, rice, eggs, or dairy which are often problematic for those with allergic dietary concerns. Adding this triple blend of hypoallergenic, plant-based proteins addresses these concerns and ultimately provides one of the most complete greens drink available.

Hemp protein is a nutritious dietary source of easily digestible, gluten-free protein. It provides a well balanced array of all the amino acids, including all of the essential amino acids. Hemp is naturally rich in antioxidants and contains a wide variety of vitamins, minerals and vital nutrients including chlorophyll, vitamin C, beta carotene, calcium, fiber, iron, potassium, magnesium, sulfur, phosphorus, and B vitamins, such as riboflavin, thiamin and niacin. Hemp is one of the oldest foods known to mankind and is considered one of the original, healing green foods. It is easily one of the most concentrated, nutritious plant foods available containing complete and balanced essential amino acids and the perfect balance of essential fatty acids. Hemp's ratio of omega-6 to omega-3 fatty acids is about 4:1. This ratio of fatty acids has been scientifically shown to be beneficial for the prevention of heart disease and cancer. Hemp is also rich in the phytosterols B-sitosterol, stigmasterol, and campesterol, known to help reduce cholesterol. The US FDA now allows the claim that plant sterols and stanol esters reduce the risk of heart disease by lowering cholesterol levels.

Rice protein contains all eight of the essential amino acids and is a good source of other essential nutrients like thiamin, riboflavin, niacin, phosphorus, iron, and potassium. Rice protein is most beneficial for what it doesn't contain! It is a non-allergic protein source that is fat free, cholesterol free, sodium free and gluten free!

Pea Protein Isolate is a hypoallergenic, plant-based protein derived from yellow peas (*Pisum sativum*). It has a high biological value, is easily digested and offers an excellent nutritional profile, is free of gluten, lactose, cholesterol and other anti-nutritional factors and is an ideal protein choice for vegans.*

Benefits of Ultimate Greens Protein 8 in 1 with Hemp, Rice & Pea Protein:

- Supports healthy blood sugar levels.*
- Enhances the immune system.*
- Helps to neutralize excess acidity.*
- Naturally and gently detoxifies.*
- Improves digestive function and increases regularity.*
- Provides excellent antioxidant protection against free radicals.*
- Increases energy levels naturally without the use of stimulants.*
- Provides a wide variety of nutrients to support cellular metabolism.*
- Increases mental acuity by providing nutrients essential for brain function.*
- Establishes a proper pH in the intestines leading to a healthy colon environment.*
- Provides 13,000 ORAC units per serving. The ORAC assay specifically measures the scavenging capacity of antioxidants in nutrients.*

WARNING: If minor gas or bloating occurs, reduce the amount taken to allow your system to adjust to the natural grain, fruit and vegetable fibers.

Our Philosophy

At Olympian Labs (OL), quality is not a choice, it's a commitment. We source our ingredients from all over the world to bring you the highest quality herbs, vitamins, minerals, amino acids and specialized ingredients. All of our products are produced in a GMP and/or ISO 9001 facility which reflects our true commitment to quality.

OL products are free of most allergens such as corn, yeast, wheat, soy, lactose, gluten, citrus, and egg products, as well as added flavorings, sugar sweeteners, salt, preservatives, salicylates, artificial colors and coatings.

When you buy OL, rest assured you are buying the best.
