

SUGGESTED USE: As a dietary supplement, take four (4) capsules once a day on an empty stomach, or as directed by a healthcare professional.

Herpes viruses infect all vertebrates. There is evidence that human beings have suffered from them since the first ancient documentations. It is not a life threatening condition, but it can cause cold sores, genital herpes, Bell's Palsy, chicken pox, shingles, and many other neurological disorders that upset the quality of life.

In laboratory in-vitro studies, many of the ingredients found in VRL-X have been demonstrated to inhibit replication of the herpes simplex viruses.
